

THE AUTOMATION CHEATSHEET

"Set it up once. Let it run forever."

Want 10X more automation sauce ?

THE AUTOMATION CHEATSHEET

"Set it up once. Let it run forever."

What Is Automation (For Real Tho)?

Automation means using tools, not time. Systems, not sweat. If you're doing it more than twice, it needs to be automated.

3 Quick Systems to Automate Today:

1. Auto-Reply DMs with a Freebie + CTA

Example: People sign up for a free starter pack on your site.

Tool: ManyChat or Tidio

→ DM "STARTER" = auto-send the Starter Pack & redirect to your sales page.

🔥 Plug: Never manually respond again.

2. AI Content Scheduler (So You Can Stay GHOST)

Tool: Metricool or Buffer

→ Upload 10 posts. Schedule a week of content.

🔥 Plug: Go live your life while your content hustles for you.

3. Stripe + Email Funnel = Instant Delivery

Tool: Stripe + Zapier + ConvertKit

→ Someone buys? Boom:

- Email gets added to funnel
 - Product auto-sends
 - Upsell triggers
- 🔥 Plug: You sleep. The system delivers.

⚡ Try This Automation Move Today:

Auto-Reply to Email Signups

Tool: ConvertKit

Set up a 3-part email sequence:

1. Welcome + Freebie Delivery
2. "Here's how I made my first \$100"
3. CTA to buy your eBook

🧠 **Bonus Game:** Plug your Stripe + Gumroad buttons into Zapier to fire off email + delivery in one swoop.

💣 Want 10x More Automation Sauce?

This is just the appetizer.

The full eBook walks you through **step-by-step** how to automate the ENTIRE business:

- Passive traffic flow
- Email funnels
